2ND DENTSPLY FRIADENT SYMPOSIUM IN BRUSSELS

MORE THAN 250 PARTICIPANTS JOINED THE 2ND
SYMPOSIUM OF DENTSPLY FRIADENT BELGIUM IN
BRUSSELS ON OCTOBER 9, 2004

For the citizens of Brussels, their “Theatre de la Monnaie” is something special. However, this time it was the ideal scenery for “Esthetics in Implantology” continuing the success series of DENTSPLY Friadent’s BEAUTY and SPEED® concept, introduced at this year’s EAO. The lectures, hosted by Prof. Dr. Guy Theuniers (Gent, Belgium), covered the whole range of implant dentistry: From tunnel-augmentations to esthetics

evident esthetics

in the anterior region, esthetic prosthodontics with the ANKYLOS® system and hands-on with CERCON®. Among the well-known lecturers were Prof. Dr. Serge Armand (Toulouse, France), Prof. Dr. Ir. Jeff van der Zel (Amsterdam, The Netherlands), **Dr. Alessandro Ponte** (Montreux, Switzerland), and Dr. Paul Weigl (Johann-Wolfgang-Goethe University, Frankfurt, Germany).

But not only was the scientific part of the symposium a highlight. The social program made the participants’ mouths water, too: They visited – what else in the city famous for its chocolatiers – a chocolate producing company. The sweet “works of art” were a delicious foretaste of the dinner with Belgian specialties and the musical frame of the setting was just as stylish: The audience rewarded the vocal performance of two young talented singers with standing ovations. Later in the evening, the participants enjoyed the exchange of experience and the lively discussions with colleagues and friends in a relaxed atmosphere.
